## IF GIVEN A CHOICE...

BY ROBERT DRAKE, M.D., PH.D.

Given a choice between work and idleness, people will almost always choose work, regardless of our station in life, the conditions of our bodies and minds, or the amount of money in our bank accounts, the need to work remains one of our strongest drives. Work is central to our lives, and as such, gives a large measure of structure to our days. Common sense tells us that we feel better about ourselves when we are working regularly.
